

ALLIES IN RUSSIA TOTAL 369,465 MEN

Composition of Forces in All Sections Announced by Foreign Minister Pichon in Paris.

POLICY IS "PACIFYING" ONE

Purpose Is Not to War on Russia, He Declares—Westward Route of Bolshevism Must Be Barred.

PARIS, March 27.—The total strength of the allied forces on the Archangel and Siberian fronts is 369,465, according to figures given by Stephen Pichon, the French foreign minister in his address to the chamber of deputies last night. The figures as to nationalities were given by the foreign minister as follows:

Archangel front: British 13,100; French 4,920; American 2,245; Italian 1,240; Serbian 1,290; Russian 11,770. Total, 34,765.

Siberian front: British 1,600; Canadian 4,000; United States 7,300; French 7,600; Italian 2,000; Serbian 4,000; Russian 210,000; Poles 12,000; Rumanians 4,000; Japanese 27,000; Czechoslovak 22,000. Total, 234,700.

Forces on Eastern Front.

The total forces of the allies on the various eastern fronts, M. Pichon stated, was 350,000. This total was divided as follows:

French 140,000; Russian 120,000; British 140,000; Italian 40,000; Serbian 140,000; Greek 200,000.

The eastern front allied to by V. Pichon presumably take in the Balkans, Asia Minor and probably the Ukraine.

Stephen Pichon, foreign minister, said yesterday afternoon in the chamber of deputies that the struggle against the bolsheviks was not a declaration of war against Russia. His address which was made in reply to interpellations made on Tuesday by Marcel Cachin and Ernest Lafont, was bitterly criticized by socialist deputies and for a time the greatest disorder prevailed in the chamber. After pointing out the allied power in Russia was not a "war" but a "pacifying" policy, M. Pichon said:

Must Bar Bolshevism.

"The Russian question is vital as it is necessary in the interest of peace to bar the westward route of bolshevism. If we do not act the day Russia reawakens she will find herself the ally of Germany."

In the beginning his defense, Foreign Minister Pichon said that the Russian policy of the government was unchanged since his last speech on the subject three months ago. He said the government had no desire to influence Russian internal politics and that the French troops had been sent to Russia to assist the Czechs.

The present ruling group in Russia, he continued, had refused to call a constituent assembly and had suppressed all liberties. All the allied nations had sent troops to Russia with the intention of suppressing anarchy and establishing a normal government which would insure peace in Europe. Peace was impossible, he declared, while Europe was threatened by a bolshevik army in which there were many German officers.

At one time during the foreign minister's speech a score of deputies were on their feet crying out against the opposite party.

Mrs. Hearst Improves.

PLEASANTON, Cal., March 27.—Mrs. Phoebe A. Hearst, mother of William Randolph Hearst, the publisher, was reported today by her physicians as a "life-improved." It was said she had been seriously ill from the after-effects of influenza. She returned to her home here recently from New York, where she suffered an attack of influenza.

Air Experiments Start.

WASHINGTON, March 27.—Major Gen. Menoher of the army air service has been instructed to prepare necessary equipment, personnel and other facilities for experiments in co-operation with the department of agriculture in use of aircraft for forest fire patrol work.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief. Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite—colds of the chest (it often prevents pneumonia). It is always dependable. 30c and 60c jars; hospital size \$2.50.

MUSTEROLE
WILL NOT BLISTER

KINKY HAIR

Here is a picture of a girl who has used Herolin Pomade. Her hair is straight, shiny, and free of all kinks, snags, and tangles. It is the only hair dressing that will do this. It is the only hair dressing that will do this. It is the only hair dressing that will do this.

Named New Director Military Aeronautics

Brig. Gen. William Mitchell.

WASHINGTON, March 27.—Complete reorganization of the military service of the United States is being worked out by Major General Chas. T. Menoher, new director of the service. Very few, if any, of the aids appointed by Major William J. Kenby, recently relieved, have been retained.

Major General William Mitchell has been named director of military aeronautics and will have charge of the actual flying end of the game. He has been head of the flying service with the American army of occupation in Germany and has been recalled to this country to assume his new duties.

The flying end of the service, it is stated, is to be subordinated. This is borne out by the fact that Major General Mitchell will be third assistant executive in the new organization.

Winchester Quiet.

WINCHESTER, Va., March 27.—Winchester was quiet today after a night of threatened riotous violence because of the killing of Raymond Shackelford and the serious wounding of L. D. Hudson, alleged bootleggers, by state prohibition agents.

The mob, which assembled before the hotel last night where the officers were sheltered, dispersed early today.

Frozen Lamb On Sale.

NEW YORK, March 27.—A carload of frozen lamb and mutton, one of the several consigned to New York of a shipment from New Zealand, via Vancouver, has been placed on sale here. In wholesale lots the shipment is expected to sell several cents under American products.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

BACKACHE AND HEAVY FEELING

Weak, Nervous, Restless Woman in Arkansas Hears of Cardui, Tries it and Is Greatly Benefited; Now Recommends It To Others.

Peach Orchard, Ark.—Mrs. Nontie High, who lives near here, writes: "Sometime ago I began to have trouble with my back. I would ache and I could hardly get up when down. I was so weak I would just drag around and did not feel like doing anything at all. I was so nervous I felt I could scream, and such a heavy feeling I could not rest at all. It looked like I was going to get down in bed."

"I heard of Cardui and thought I would try it and see what it would do for my case. After taking a few bottles I grew stronger. The bloated, heavy feeling left me. I wasn't so nervous, in fact, felt better all over. I took twelve bottles and certainly was greatly benefited and can recommend it to any one as a tonic or builder. I often tell others how it helped and strengthened me."

Cardui is a mild vegetable tonic, with no bad after-effects. Its ingredients act in a helping, building way, on the womanly constitution.

Ask your druggist. He knows about Cardui. Some druggists have sold it for forty years.

GERMANS WARNED TO TREAT YANKS WITH MORE RESPECT

By The Associated Press.

COBLENZ, Wednesday, March 26.—The burgomaster of Coblenz has published a notice in the newspapers demanding that the Germans in the area of occupation use more self control in their conduct toward the American soldiers, especially in any acts which might be taken by the Americans as an insult to their uniform or otherwise. The burgomaster took this action because of an increase recently in the number of fights between the Americans and civilians, an American soldier being stabbed to death in one instance.

In several districts there have been more signs recently of a hostile feeling against the Americans than were in evidence previously.

SURGEON GENERAL DENIES REPORT OF BASKET CASES

WASHINGTON, March 27.—Major General Ireland, surgeon general of the army, said today there was no foundation for widely circulated and persistent reports of "basket cases" in army hospitals. A "basket case" is a soldier who has lost both legs and both arms and therefore cannot be carried on a stretcher. "I wish to emphasize that there has been no instance of an American soldier so wounded during the whole period of the war," said General Ireland.

FIRST UNITS OF 35TH ASSIGNED FOR RETURN

WASHINGTON, March 27.—First units of the 35th (Missouri and Kansas national guard) division to

be designated for early return were included in the list of organizations announced by the War department today as assigned to early convoy home from France.

They were the 60th field artillery brigade and the headquarters of the 128th, 129th and 130th field artillery regiments. Base hospital No. 52 and bakery company No. 287 also have been added to the list of those units assigned to early convoy.

SAYS BOLSHEVISTS PLAN CAMPAIGN AGAINST POLES

PARIS, Wednesday, March 26.—A great military campaign against Poland is to be opened by the Russian soviet government this spring, it was declared by M. Joffe, the former bolshevik minister at Berlin, at a recent meeting in Vilna, according to word received by the Polish national committee in Paris.

The central executive committee of the soviet government, the Polish committee also has been informed, has voted unanimously an appropriation of 27,000,000 rubles monthly for bolshevik propaganda in Poland.

Use Geophone in Mines.

WASHINGTON, March 27.—The geophone, invented during the war to determine the exact location of sounds above and beneath the surface of the earth, soon will be used extensively in mining operations in this country, the bureau of mines announced today.

Ask Debs to Hear.

WASHINGTON, March 27.—The supreme court was asked today to rehear the case of Eugene V. Debs, socialist leader, whose conviction under the espionage act growing out of statements made by him in a speech in Canton, Ohio, was affirmed by the court on March 10.

AMERICAN FOOD ARRIVES IN TIME TO SAVE ENEMY

By The Associated Press.

BERLIN, Wednesday, March 26.—The arrival at German ports of the first American food ships was just in the nick of time to meet the crisis in the food situation. The potato ration in Greater Berlin was reduced this week to three pounds and no fresh meat is available for issue to residents of cities. These residents are receiving canned meat from the remnants of the army's stores.

The government's weakness and the necessity of its devoting all its efforts to the suppression of insurrections so that the new regime might get a start made it still less able than its predecessors to suppress the illegitimate food trade.

FOLLOWED UP HIS PRIZE CORN OVER 1,000 MILES

Special to The World.

NORMAN, Okla., March 27.—Ten ears of white corn were traded more than 1,000 miles by William Hart, of Norman, and when the trail ended the corn found had lost many grains to the row, it was not the property of Mr. Hart.

Mr. Hart's ears of corn were perfect examples of the Silver Mine variety and had won blue ribbons at

both the Oklahoma and Texas state fairs. Therefore they were valued very highly. Last fall they were placed in the seed exhibition of the international seed convention at Kansas City. Influenza broke up the convention, the seed show was abandoned and soon thereafter the corn disappeared from the exhibit rooms. Mr. Hart trailed the corn all over northern Missouri only to find 10 ears with 18 grains in the row instead of 16, which characterized his own product.

Start Train to Orient.

PARIS, Wednesday, March 26.—The operation of through trains from Paris to the Orient will begin over part of the line April 15 and the whole system will be inaugurated by May 1, according to an official statement issued by the commission on the international regime of ports, waterways and railways tonight. Dutch claims relative to navigation on the Rhine also were heard from the session of the commission held today.

CHEAPER TRANSPORTATION INSTEAD OF CHEAPER CARS

Corporations require cars for the use of executives. They can afford to buy to the best advantage. They choose Packards for definite business considerations: longer life and higher second-hand value; ease of handling; lower maintenance cost; reliability; economy and safety; and because the Packard is professional through and through

HERE are a good many men in a rut as to motoring possibilities.

They don't know what they are missing or what it is costing them to use a compromise car.

They never will know until they get their hands on the steering wheel of a Packard Twin Six, feel its sensitive response, its pick-up and get-away, its pep and go, its ease of control, its absolute smoothness and accuracy.

The Twin Six is a remarkable car to handle in traffic. It is a revelation to the man who now grinds and jerks along in congested city streets.

It can be throttled down on high gear as low as two miles an hour and most of its work is done on high. From two miles an hour it will, in a few blocks, pull up to better than a mile a minute. But with all its speed and power it is not a racing machine; it has none of the limitations of the car built for fast travel over short distance; and it doesn't make you pay for power you don't use.

One prominent industrial man says, "The Packard has added at least three hours to my potential business day."

Another says, "With the Packard I can live 20 miles farther in the country."

Another says, "I can cover more ground and keep to schedule by my watch. These days the Packard is more reliable than the trains."

Another, "The Packard is one shining example of a motor car that an owner might elect to drive and care for himself."

There is a new science of transportation—that of motor-vehicle performance, maintenance and cost. It has to do with your car and its duty, however limited its use.

The Packard people are transportation experts; they have more to tell you on this subject than any other organization in the world. You can ask them to discuss your car problem without obligation. It is to your interest and profit to do so.
